September 9, 2015

Dear Hiring Team,

I am a graduate student (PhD program) in Computer Science Department of University Of Illinois, Urbana Champaign and I am working with Professor Vikram Adve in LLVM compiler research group. I am applying for the internship position with Requisition Number 67621BR. I come to know about this opportunity from a recent career fair on 8th of September, 2015.

The reason that I am applying for this position is because of my passion in systems, compilers and operating systems. Also, I have +5 years experience in C, C++, shell and +2 years experience in Perl. I have a strong academic record (please refer to the resume) and I have worked in various projects related to compilers and architectures. Also I have 5 years of job experience where I have shown excellent commitment in meeting deadlines with quality product.

If you feel that I am a good fit for your project, then you may call or mail me so as to provide me with an opportunity for a personal interview.

Sincerely yours,

Sandeep Dasgupta
